digital workflow

Nesting in
Make&Mill using
MillBox CAM

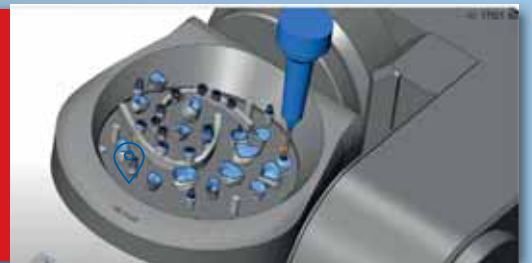

Laser Melting
Execution

Probing and
Best Fitting

Refining in
milling machine

Inspection for
compliance

Job reports and
compliance
certification

A screenshot of a software interface showing a detailed job report. The report is organized into a grid with columns for 'Part', 'Material', 'Status', 'Actual Value', 'Error', 'Date', and 'Accepted / Rejected / Done'. The data is presented in a clear, tabular format, with a 3D model of a part visible in the background.
